# A Beautiful Parlor Rocker Value

A New and Impressive Design, Representing a Master Stroke in Merchandising

MAY BE HAD IN GOLDEN OAK OR MAHOGANY FINISH

Has Opera Roll Seat. Marquetry Design is in Dainty Colors. A Roomy, Restful and Comfortable Rocker.

\$6<sup>95</sup>

## One of the Biggest and Best Values

that we have ever offered in a parlor rocker is the one that we illustrate on this page. If you have a place in your home for a large, comfortable and extremely beautiful rocker, something far superior to anything that you have ever seen at the price, we can recommend this one very readily. It is beyond criticism and being offered at a ridiculously low price. It is a rocker that is the equal or superior to any that your friends may own.

## The Back and Seat

are made from 5-ply built up veneer and we guarantee it against cracking or checking. The back is neatly decorated with an intricate design of Marquetry and shows up in dainty colors. It is indeed a beautiful design. The seat is full opera roll, which makes it very comfortable when sitting in it. The spindles are hand turned, the arms are wide and the front posts are exceptionally large, have a well executed embossing and the sweeps are carefully turned. The back posts are likewise hand turned and the construction is very strong and very durable, much more so than you will find in rockers selling at or near this price. We offer this rocker in quartered Oak, finished golden, or Northern Birch, finished mahogany. Both finishes are beautifully glossed, for only the highest grade of varnish is used, giving the rocker a mirror-like brilliancy.

## To Purchase a Rocker

like this one it was necessary for us to give one of the largest orders that any institution has ever placed for a single design, and by doing so we secured a most advantageous reduction in price and we are offering you that saving. Lots of stores would sell this rocker for nearly \$10.00, and we know it is worth it, but we are content with a small margin of profit and you will secure the benefit. If you want a real nice and beautiful rocker, this one should be your choice. Remember, too, that we are willing to send it to you, let you use it for 30 days before you make up your mind to buy; there could not be a better offer made by anyone. You will find it to be the best and biggest value that you have ever seen, for we believe that without exception it is indeed a greater value than we could ever describe here or show in the picture. You must see the rocker itself to fully understand why we are so enthusiastic about it.

## We Want You

to order this rocker on approval and we will guarantee it to be exactly as represented, and we will further allow you to use it for 30 days before you make up your mind to buy. This is our plan of selling. If you do not find it to be the most wonderful value that you have ever seen, and if you do not find it to be exactly as represented, or if for any other reason you are dissatisfied with it, you may return it and your first payment, as well as freight charges, will be refunded. It will be shipped to you direct from our Pittsburgh warehouse, securely packed and guaranteed to reach you in perfect condition. Shipping weight about 60 lbs. Be careful in ordering, however, to state the finish that you want so that no mistake will be made. Send us your order at once so that you will receive the rocker just when you need it, for we have a large stock and can make prompt shipment.

**The Frame** is constructed of solid Oak finished golden or mahogany, both finishes highly glossed. The entire frame work is joined in the most suitable manner and the foot rest is so arranged that it may be extended or put back under the rocker proper. The back reclines to any position, being fitted with the adjusting rack. It is beautifully upholstered with Chase leather, one of the nearest approaches to genuine leather possible. The back has a full roll head rest and the back fits the occupant's position to perfection.

**We Consider That This Rocker** is perfection itself. It is extremely comfortable and is mounted on a platform base and rocks on a suspended frame work. Rockers of this character have been in use for many years, but they have never been offered before with an adjustable foot rest, and because it is built for wear and will give years of service and gives the occupant an easy rocking motion when seated in the chair, we are sure that you will be more than pleased in the selection of this rocker. You will never know how comfortable and luxurious the chair is until you sit in it and use it. Think of lying in a nice soft, springy cushion with your back in any position when rocking; and remember, too, that the seat is upholstered over full steel coiled spring construction, and while reclining in a comfortable position your feet rests upon a support which rocks when the chair rocks. If desired it can be utilized for a barber chair, for it has all the requisites of one.

**Those of You** who are looking for something extremely comfortable should select this bargain. It will be shipped to you direct from our factory in New York, upon receipt of your first payment, and if you are not thoroughly satisfied with it after it is received it may be returned and your first payment, as well as freight charges, will be instantly refunded. Shipping weight, about 100 lbs.

On account of the Reclining Back and Rocking Foot Rest, this Chair could also be used for a Barber Chair

**The Automatic Davenport** that we have selected for this sale is the finest and most artistic that you have ever seen sold at or near our price. It represents perfection in the art of davenport making. It has been designed especially for this sale, and if you are without a davenport at the present time, and want something in a davenport, you should consider this one very carefully.

**The Construction** is of the very best, the frames being made of selected and thoroughly seasoned solid Oak. It is carefully and securely put together and the greatest care has been taken in the joining of the various parts to make it substantial in every way. The upholstery is our celebrated Imperial leather, being especially manufactured for us, and is one of the nearest approaches to genuine leather possible. Its sterling qualities cannot be excelled, consequently you save the expense of upholstering, which is very often the case when a cheap fabric is used.

**The Filling** consists of the highest grade tow, covered with a double thickness of cotton felt on top. The leather is handsomely diamond tufted and securely fastened to an all spring construction with patent double pronged tufting buttons; it will not pull out. The top and front of this davenport are serpentine in shape and are very neatly pleated. You will note the arms are wide, gracefully curved, and the front posts are daintily embossed and have carved claw feet.

**The Bed** feature of this davenport is the simplest device on the market. By merely raising the seat cushion and unlatching the back the bed is made. This feature adds at least 50 per cent. to the value of this davenport. Each davenport has a commodious wardrobe directly underneath the seat, which can be used for the storing of bedding or as a receptacle for wearing apparel. The illustration shows the exact style and outline but cannot exactly do justice to the davenport. It certainly must be seen to be fully appreciated.

**In Reading Our Description** of this davenport, do not think it is beyond your means to purchase. We have endeavored to make it one of the most pronounced values that we have ever offered. It is indeed a wonderful piece of furniture and those of you who are in need of a davenport and want one of this style should not pass up this wonderful opportunity. Remember, too, that our plan of selling makes you the sole judge of your own satisfaction, which means that you can order the davenport, put it in your home and use it for 30 days, sleep on it, in fact, put it to every conceivable test possible and we are sure that you will never part with it; but on the other hand, if you are dissatisfied, it may be returned and your first payment, as well as freight charges, will be instantly refunded. If you will stop to think of this offer, you will readily understand why you must be satisfied before the sale is made, and our convenient plan of paying makes it possible for you to use this davenport while you are paying for it. We are confident that it will please the most exacting person. With proper care it will last indefinitely. And remember, most, above all, must be pleased with it. We have an exceedingly large stock and can make prompt shipment.

**We Solicit Your Order** for this automatic bed davenport on our liberal 30 day free trial which gives you the privilege of inspecting it and convincing yourself of its sterling qualities after you receive it. You do not have to make up your mind to buy it until after you have given it this trial. You will soon be convinced, as we have said, that we are leaders in the art of davenport making. Do not delay your order but send it to us at once, with the customary first payment, and this davenport will be shipped to you direct from our factory in Central Illinois or Northern New York. ### We Offer Here One of the Greatest Values

that has ever been featured in a kitchen cabinet. A woman who has never owned a kitchen cabinet cannot imagine what a great convenience, or in fact a necessity they represent. Have you ever noticed in the preparation of a meal the innumerable stops a woman must take in gathering together the ingredients for that meal, and did it ever occur to you what an added convenience it would be if it were possible to own a kitchen cabinet. Any one in preparing a meal or in baking knows that a kitchen cabinet is a necessity. If you will stop and think you will find that it is nearly impossible to have all the materials that you use on the table when you begin to work. Everything must be brought from the pantry, cupboard, cellar or some other place.

**The Cabinet** we offer here is one that we have designed ourselves and the only reason we think so much of it is the fact that it represents, in a way, all the features that are embodied in a higher priced kitchen cabinet. The construction throughout is of solid oak, finished golden. The top of the base has polished nickeloid cover, which can be extended, and underneath this you will note the convenient kneading board. Underneath the sliding cover you will note the two large drawers. These can be utilized for linens, cutlery, etc. To the left of the base you will note the large compartment for the storage of pots, pans, etc. To the right of the base is an extremely large drawer, which can be used for bread, cakes, pies, or in fact the storing of any food. In the top you note the large, convenient, white enameled china closet and to the left of this the flour bin with white interior. This flour bin has a safety attachment, and when you buy a sack of flour, simply empty it into this bin and use the flour as you need it. You will note also that the top has two drawers which can be used for most any purpose that a woman may desire. We call your attention also to the fact that the doors of the china closet and the glass in the flour bin is of art glass variety. This gives the cabinet an extremely pleasing appearance and the sanitary base measures 26 inches x 42 inches and the cabinet stands 72 inches high. There is also included with this cabinet a set of six spice cans.
